

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

1. (Currently Amended) An electric machine comprising:
a carrier; and
a kinetically sprayed permanent magnet material and a binder material forming a composite admixture having microstructures of permanent magnet material embedded in the binder material, said admixture having a permanent magnetic moment and positioned atop of the carrier to form a first component of the electric machine.
2. (Original) The electric machine of claim 1, wherein said admixture of magnetic material and binder material has a particle size less than 325 mesh.
3. (Original) The electric machine of claim 1, wherein said magnetic material is selected from the group consisting of iron, nickel, cobalt, samarium-cobalt, aluminum-nickel-cobalt, neodymium-iron-boron and samarium-iron-nickel or mixtures thereof.
4. (Original) The electric machine of claim 1, wherein said binder material is selected from the group consisting of iron, nickel or cobalt or mixtures thereof.
5. (Original) The electric machine of claim 2, wherein said ~~component~~ carrier is aluminum.
6. (Original) The electric machine of claim 1, wherein said carrier is iron.
7. (Original) The electric machine of claim 1, wherein said electric machine is a motor.

Reply to Office Action of April 10, 2003

8. (Original) The electric machine of claim 1, wherein said electric machine is a generator.

9. (Original) The electric machine of claim 1, further comprising a kinetically sprayed conductor coil attached to a second component.

10. (Currently Amended) The electric machine of claim ~~1~~ 9, wherein said second component is aligned with said first component whereby a magnetic moment penetrates the coil.
